PROFESSIONAL SUMMARY.

Full Stack Developer with 3.5+ years of experience building scalable web and mobile applications. Expertise in React, React Native, NodeJs, ExpressJs, NestJs, MySQL, PostgreSQL, MongoDB and cloud infrastructure (AWS, Docker, Jenkins, Kubernetes). Proven track record delivering 60+ features across Fintech, healthcare and e-commerce domains, learning management softwares with focus on performance optimization and CI/CD automation.

SKILLS

Front End	: React, React Native, VueJs, Typescript, Redux
Backend	: Node.js, Express.js, Nest.js, Loopback, Rest API's, GraphQL
Database	: MySQL, MongoDB, PostgreSQL, TypeORM
Devops	: AWS(EC2, S3, RDS, EKS, ECR, Route 53, CloudFront, IAM, CloudWatch), Docker, Jenkins, Kubernetes, Prometheus and Grafana
Testing	: Playwright, Mocha

EXPERIENCE

Full Stack Engineer | Magnificenz Tech Solutions

July 2024 - Present, Bangalore, IN

- Developed 3 production applications (Payment, CRM, File Management) using React, React Native, Typescript, NestJs, PostgreSQL with 60+ features
- Reduced database query time by 40% through PostgreSQL optimization, indexing strategies and schema refactoring
- Deployed application on AWS EC2 with Docker, Jenkins, Kubernetes, implementing CI/CD pipelines and monitoring with Prometheus/Grafana.
- Tested Implemented features in Playwright testing framework

Software Engineer | Tech O2 India Pvt Ltd

Feb 2024 - July 2024, Bangalore, IN

- Optimized database queries and stored procedures, improved system response time.
- Managed Sprint planning using Jira, ensuring 95% on-time delivery of assigned features.
- Implemented 20+ features in the LMS product.

Software Developer | OneGlance Medical Softwares Pvt Ltd

March 2022- October 2023, Chennai, IN

- Build 40+ features for health care Management system using VueJs, NodeJs and MySQL serving 500+ daily users
 - Developed a dynamic system with PDF/CSV export functionality using SQL stored procedures.
 - Reduced page load time through query optimization and did UI optimization and component refactoring.
 - Tested Implemented features in JS Mocha
-

KEY PROJECTS

Bebouy Payment Integration Platform

Tech Stack: Node.js, LoopBack, Nest.js, React.js, Redux, GraphQL, PostgreSQL, Redis, AWS, Devops.

- Consolidated 5 legacy codebases into unified architecture, reducing maintenance cost.
- Implemented CI/CD pipeline reducing deployment downtime.

Quickify - Location Based Food Delivery App

Tech Stack : React, React Native, NestJs, MySQL, Web Sockets, Schedulers

- Build real-time food ordering platform with geolocation-based restaurant discovery and [Socket.io](#) live order tracking
- Designed optimized MYSQL database schemas and Architected Entire Project.

Learning Management System (LMS)

Tech Stack : NestJs, MySQL, Expo React Native, React.

- Developed LMS software for Students with Course Management, Quizzes, Analytics features.
- Integration Razor Pay payment gateway in Mobile application.

Doctor Appointment System

Tech Stack : React, NodeJs, ExpressJs, MongoDB, Antd. Redux

- Build an appointment booking software for patients to book appointments and integrated in medical case sheet management software that generated good revenue for that organization.

Full Stack Blog Application

Tech Stack : MERN + GraphQL + Typescript

- Created a blog application from scratch and implemented graphql for better performance

Naturous Backend Software

Tech Stack : NodeJs Express Js Mongo DB

- Create a fully optimized backend code for Tourism Management software with entirely refactored and reusable code with high level security methods like JWT and password encryption.
-

EDUCATION & CERTIFICATIONS

B.Sc Maths | Sri Devi Arts and Science College

Certifications: Python and Django, Web Development with Angular

2020
