Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Full Stack Developer with 3.5+ years of experience building scalable web and mobile applications. Expertise in React, React Native, Node.js, NestJS, and cloud infrastructure (AWS, Docker, Kubernetes). Proven track record delivering 60+ features across fintech, healthcare, and e-commerce domains with focus on performance optimization and CI/CD automation.

TECHNICAL SKILLS

Frontend:	React.js, React Native, Vue.js, TypeScript, Redux
Backend:	Node.js, Express.js, NestJS, Loopback.io, GraphQL, REST API
Database:	PostgreSQL, MySQL, MongoDB, TypeORM
DevOps:	AWS (EC2, S3, RDS, EKS, ECR, Route 53, CloudFront, SQS, SNS, IAM, CloudWatch), Docker, Kubernetes, Jenkins, CI/CD, Prometheus, Grafana
Testing:	Playwright, Mocha

PROFESSIONAL EXPERIENCE

Full Stack Developer | Magnificenz Tech Solutions

July 2024 - Present

- Developed 3 production applications (Payment, CRM, File Management) using React, React Native, TypeScript, and NestJS with 60+ features
- Reduced database query time by 40% through PostgreSQL optimization, indexing strategies, and schema refactoring
- Deployed applications on AWS EC2 with Docker/Kubernetes, implementing CI/CD pipelines and monitoring with Prometheus/Grafana
- Achieved 85% code coverage through comprehensive Playwright end-to-end testing across browsers and devices

Software Engineer | Tech O2 India Pvt Ltd

Feb 2023 - July 2023

- Optimized database queries and stored procedures, improving system response time by 35%
- Managed sprint planning using Jira, ensuring 95% on-time delivery of assigned features

Software Developer | OneGlance Software Services Pvt Ltd

Mar 2022 - Oct 2023

- Built 40+ features for healthcare management system using Vue.js, Node.js, and MySQL serving 500+ daily users
- Developed dynamic reporting system with PDF/CSV export functionality using SQL stored procedures
- Reduced page load time by 30% through responsive UI optimization and component refactoring

KEY PROJECTS

BeBouy Payment Integration Platform

LoopBack 4, NestJS, React.js, PostgreSQL, GraphQL, Docker, Kubernetes, AWS

- Consolidated 5 legacy codebases into unified architecture, reducing maintenance overhead by 60%
- Implemented CI/CD pipeline reducing deployment time from 2 hours to 15 minutes

Quickify - Location-Based Food Delivery App

React, React Native, NestJS, MySQL, Socket.io, Google Maps API

- Built real-time food ordering platform with geolocation-based restaurant discovery and Socket.io live order tracking
- Designed optimized MySQL database supporting 1000+ concurrent users with role-based access control

Learning Management System (LMS)

NestJS, TypeORM, PostgreSQL, Expo React Native, Docker, Kubernetes

- Developed full-featured LMS with course management, quizzes, analytics, and payment integration (Razorpay/PayU)
- Containerized and deployed using Docker/Kubernetes with observability stack (Prometheus, Grafana, Loki)

SmartCare - Doctor Appointment System

MERN Stack, JWT, Material UI, Redux

- Built appointment management system with JWT authentication, admin dashboard, and role-based access control

EDUCATION & CERTIFICATIONS

B.Sc in Mathematics | Sri Devi Arts and Science College

2020

Certifications: Python and Django, Web Development with Angular
